Dentist Brings Big Smiles to Children's Faces

Local Dentist makes a difference in Honduras Despite Many Challenges

By Dan Durst

Peterborough Dentist Dr. Chris Moore overcame great challenges this Summer to treat the children in our village. Despite breakdowns in the drill and compressor and a power outage due to lightening, Dr. Moore was able to assess approximately 130 children, including Tias (house Aunties) and staff, and treated about 35 people during his visit.

The children loved Dr. Moore for his kindness, patience and gentle treatment and chair side manner. After their treatments the kids all hugged Dr. Moore and thanked him for the work.

Dr. Moore also went from home to home handing out new toothbrushes

Dr. Moore posing with some of his young patients

and floss and teaching the children and the Tias how to properly brush their teeth and floss.

We hope to continue this dental work next year and perhaps we will be fortunate enough to bring a hygienist as well. We want to thank Dr. Moore and all of the Sponsorship Awareness Brigaders and the

donors who supported them for all of their hard work.

Thanks to the group and Dr. Moore all the children were taught proper brushing techniques

After their treatments the kids all hugged Dr. Moore and thanked him for the work
